Public App Development Observatory

Window 2026-10-03T20:00:00Z → 2026-11-02T20:00:00Z (UTC) · generated 2026-11-03T00:35:28Z · ruleset pilot-5 · Microsoft Application Inspector 1.10.2

> Uniform random sample of 100 repositories drawn from 344,747 public repositories with qualifying human activity in GH Archive. Source-scan shares carry 95% Wilson confidence intervals; worst-case margin for complete scans is ±10.33 percentage points.

344,747	100	90	8	1	1
Population (30 days)	Sampled repositories	Complete scans	Partial	Failed	No eligible source

Repository OS groups and primary languages

Category	Repositories	Most used language	Second most used
Cross-OS	10 (10.0%)	Go: 3 (30.0%); Python: 3 (30.0%) (tied)	C#: 2 (20.0%)
Windows	14 (14.0%)	Java: 4 (28.57%); TypeScript: 4 (28.57%) (tied)	Rust: 2 (14.29%)
Others	76 (76.0%)	TypeScript: 20 (26.32%)	Python: 17 (22.37%)

Distribution denominator: all 100 sampled repositories. Groups are mutually exclusive: Cross-OS first, then Windows candidates excluding Cross-OS, then Others. Windows indicates a detected Windows signal, not Windows-only support. Languages use GitHub's primary language per repository; percentages are within each category. Ties are retained. The second column of languages shows the next distinct frequency rank.

Deterministic review of pinned public GitHub documentation; no OpenAI API is used. Cross-OS requires explicit documentation of application support for at least two operating systems. CI runners, languages, frameworks, browser access, and inferred portability do not qualify. The remaining repositories are Windows when a complete source scan detects a Windows signal, and Others otherwise. Cross-OS takes precedence; the three groups are mutually exclusive and use the full sample denominator, including ambiguous and undocumented repositories. Windows means a detected signal, not proven Windows-only support. Others means neither cross-OS support nor a qualifying Windows signal demonstrated. Static review, not runtime testing.

Seed 2026-11-02T20:00:00Z · 720/720 archive hours · 987,512 qualifying events · 7 sampled repositories replaced because they were deleted/private.

Interactive dashboard: https://msftjonw-labs.github.io/windows-app-discovery/

Primary programming languages and their target platforms

Percentages are calculated only from the 90 complete scans, excluding 8 partial scans, 1 failed scans, and 1 repositories with no eligible source. Each repository is counted in exactly one category, so shares add up to 100%.

GitHub's primary language per repository. The last column splits each language's repositories by primary target platform (an explicit OS target wins, several OS targets = Multiple OS, otherwise the most specific environment; generic runtimes/scripts come last), so each language's platform shares add up to 100%.

Category	Count / n	Share	95% CI	Target platform distribution
TypeScript	23/90	25.56%	17.67–35.44%	Web: 78.26%, Windows: 13.04%, Multiple OS (incl. Windows): 4.35%, Node.js tooling/runtime (OS unspecified): 4.35%
Python	19/90	21.11%	13.95–30.63%	Web: 36.84%, Python runtime (OS unspecified): 26.31%, Containers / Kubernetes: 10.53%, Linux: 10.53%, Server / backend: 10.53%, Windows: 5.26%

Framework evidence

Percentages are calculated only from the 90 complete scans, excluding 8 partial scans, 1 failed scans, and 1 repositories with no eligible source. Each repository is counted in exactly one category, so shares add up to 100%.

Most specific detected framework per repository (e.g. Next.js before React).

Category	Count / n	Share	95% CI
No framework detected	47/90	52.22%	42.02–62.24%
Next.js	15/90	16.67%	10.37–25.69%
React	13/90	14.45%	8.64–23.16%
Electron	3/90	3.34%	1.14–9.35%
Windows Forms	3/90	3.33%	1.14–9.35%
FastAPI	2/90	2.22%	0.61–7.74%
Spring Boot	2/90	2.22%	0.61–7.74%

Flask	1/90	1.11%	0.2–6.03%
Flutter	1/90	1.11%	0.2–6.03%
Svelte	1/90	1.11%	0.2–6.03%

Project application and automation types

Share of complete repository scans with collected project findings, including libraries/tools and non-Windows PowerShell. Each repository counts once per category across its projects. Categories overlap: Windows desktop app includes Windows Forms, WPF, WinUI, and UWP; shares need not sum to 100%. Older inventories without project findings are excluded. Types are identified from source patterns and project metadata, not inferred from OS or language. Repositories without sufficient type evidence remain in the denominator and are reported in the classification coverage note, not as application types. Static indicators do not prove executable or runtime behavior.

Category	Count / n	Share	95% CI
Shell / batch automation	52/90	57.78%	47.46–67.46%
Web frontend	45/90	50.0%	39.88–60.12%

Windows-container compatibility and containerization potential

Static base-image indicators from scanned Dockerfiles and Containerfiles; no build or runtime test. Source indicators do not prove build or runtime compatibility; absence of a Dockerfile is not proof of incompatibility.

Among complete Windows-targeted scans, repositories with container/orchestration configuration or Dockerfile/Containerfile base images are excluded. Remaining project-type and Windows-component indicators are heuristic screening evidence, not a test of Windows-container support.

The two assessment scopes overlap; their counts must not be added together.

Scope	Assessment	Repositories
Base-image evidence	Windows base image configured	0
Base-image evidence	Linux base image configured	12
Base-image evidence	Mixed or ambiguous base images	14
Base-image evidence	No container base-image evidence	64
Base-image evidence	Incomplete source scan	10
Containerization potential	Potentially suitable; validate with a build/run	3
Containerization potential	Conditional; dependencies or project type need review	3
Containerization potential	Poor fit for standard Windows Server containers	4
Containerization potential	Insufficient project evidence	0
Containerization potential	Excluded: container/orchestration evidence detected	8
Containerization potential	Excluded: no Windows target detected	72
Containerization potential	Not assessed: incomplete scan	10

Repository	Existing container evidence	Containerization potential	Source evidence
0ladymt/mt-pack-organizer-releases	No Dockerfile or Containerfile base image was found in the scanned source; this does not establish incompatibility.	Detected desktop UI or graphics dependency is a poor fit for standard Windows Server containers: WPF, Windows Forms.	.NET native interop (src/MT_Pack_Organizer.ps1:82), .NET native interop (src/MT_Pack_Organizer.ps1:4164), .NET native interop (src/MT_Pack_Organizer.ps1:4165), .NET native interop (src/MT_Pack_Organizer.ps1:4189), .NET native interop (src/MT_Pack_Organizer_0.9.16.ps1:2697), .NET native interop (src/MT_Pack_Organizer_0.9.16.ps1:2698), COM (src/MT_Pack_Organizer.ps1:4175), PowerShell script (patches/current.ps1:1), PowerShell script (src/MT_Pack_Organizer.ps1:1), PowerShell script (src/MT_Pack_Organizer_0.9.16.ps1:1), Python application / script (tools/generate_butterfly_flight.py:101), WPF (src/MT_Pack_Organizer.ps1:908), WPF (src/MT_Pack_Organizer_0.9.16.ps1:760), Win32 (src/MT_Pack_Organizer.ps1:82), Win32 (src/MT_Pack_Organizer.ps1:4164), Win32 (src/MT_Pack_Organizer_0.9.16.ps1:2697), Windows Forms (src/MT_Pack_Organizer.ps1:2), Windows Forms (src/MT_Pack_Organizer.ps1:2771), Windows Forms (src/MT_Pack_Organizer.ps1:2780), Windows Forms (src/MT_Pack_Organizer.ps1:3112), Windows Forms (src/MT_Pack_Organizer.ps1:3468), Windows Forms (src/MT_Pack_Organizer.ps1:3486), Windows Forms (src/MT_Pack_Organizer.ps1:3490), Windows Forms (src/MT_Pack_Organizer.ps1:3690), Windows Forms (src/MT_Pack_Organizer_0.9.16.ps1:2), Windows Forms (src/MT_Pack_Organizer_0.9.16.ps1:1783), Windows Forms (src/MT_Pack_Organizer_0.9.16.ps1:1977), Windows Forms (src/MT_Pack_Organizer_0.9.16.ps1:2307)

eom-tae-in/ticket-on	No Dockerfile or Containerfile base image was found in the scanned source; this does not establish incompatibility.	Container or orchestration configuration was detected; excluded from the not-yet-containerized assessment.	No specific project evidence

Repository	Existing container evidence	Containerization potential	Source evidence
farhananwarghumman/TippSend	Container base-image evidence is mixed or ambiguous; Windows-container compatibility is undetermined.	No Windows target was detected.	mcr.microsoft.com/dotnet/sdk:8.0 (unknown; Dockerfile:1), mcr.microsoft.com/dotnet/aspnet:8.0 (unknown; Dockerfile:8)
runkids/skillshare	Explicit Linux container base image configured; Windows-container compatibility is not established.	Container or orchestration configuration was detected; excluded from the not-yet-containerized assessment.	golang:${GO_VERSION}-bookworm (linux; docker/ci/Dockerfile:7), debian:bookworm-slim (linux; docker/ci/Dockerfile:18), golang:${GO_VERSION}-bookworm (linux; docker/production/Dockerfile:6), debian:bookworm-slim (linux; docker/production/Dockerfile:17), node:${NODE_VERSION}-bookworm-slim (linux; docker/sandbox/Dockerfile:7), golang:${GO_VERSION}-bookworm (linux; docker/sandbox/Dockerfile:17)
basher83/tailnet-microservices	Explicit Linux container base image configured; Windows-container compatibility is not established.	No Windows target was detected.	rust:1-bookworm@sha256:adab7941580c74513aa3347f2d2a1f975498280743d29ec62978ba12e3540d3a (linux; Dockerfile:11), debian:bookworm-slim@sha256:67b30a61dc87758f0caf819646104f29ecbda97d920aaf5edc834128ac8493d3 (linux; Dockerfile:22)

Identified Windows repositories

Windows candidates: complete scans with a Windows platform signal, including libraries/tools, excluding repositories classified as Cross-OS. Community feedback is limited to the report window and the collected sample, not a live or community-wide assessment.

Repository	Scan	Language	Platform	Framework	Windows app type	Windows components	Repository analysis
0ladymt/mt-pack-organizer-releases	success	PowerShell	Windows	Windows Forms	PowerShell script, WPF, Windows Forms	.NET native interop, COM, Win32	Analysis not collected. Run the AI analysis step to populate this column.
developerz-ai/multi-ai-router	success	TypeScript	Windows	No framework detected	Console / other / unknown		Analysis not collected. Run the AI analysis step to populate this column.
baekenough/oh-my-customcode	success	TypeScript	Windows	Svelte	Native / Win32 (UI not proven)	Win32	Analysis not collected. Run the AI analysis step to populate this column.
Quimia-br/quimia-web-crud	success	Java	Windows	Spring Boot	Native / Win32 (UI not proven)	Win32	Analysis not collected. Run the AI analysis step to populate this column.
julienld/ha-mcp-native	success	Python	Windows	No framework detected	Native / Win32 (UI not proven), PowerShell install script, PowerShell script	Win32	Analysis not collected. Run the AI analysis step to populate this column.
ajare/vulkan-poly-pusher	success	C++	Windows	No framework detected	Native / Win32 (UI not proven)	COM, Win32	Analysis not collected. Run the AI analysis step to populate this column.
PostHog/trino	success	Java	Windows	React	Native / Win32 (UI not proven)	Win32	Analysis not collected. Run the AI analysis step to populate this column.
xiajiajun516/dsh-config-manager	success	TypeScript	Windows	React	Native / Win32 (UI not proven)	.NET native interop, COM, Win32	Analysis not collected. Run the AI analysis step to populate this column.
deepmsg/deepmsg	success	Rust	Windows	No framework detected	Native / Win32 (UI not proven)	Win32	Analysis not collected. Run the AI analysis step to populate this column.
ClarionLive/multiterminal	success	C#	Windows	Windows Forms	PowerShell install script, PowerShell script, WPF, Windows Forms	.NET native interop, Win32, Windows Registry	Analysis not collected. Run the AI analysis step to populate this column.
Project-Colony/Xion	success	Rust	Multiple OS (incl. Windows)	No framework detected	Console / other / unknown		Analysis not collected. Run the AI analysis step to populate this column.
Statsify/statsify	success	TypeScript	Multiple OS (incl. Windows)	Next.js	Native / Win32 (UI not proven)	Win32	Analysis not collected. Run the AI analysis step to populate this column.
BestTeam-MosipDecode/face-liveness-pad	success	Java	Windows	Spring Boot	Native / Win32 (UI not proven), PowerShell script	Win32	Analysis not collected. Run the AI analysis step to populate this column.
eom-tae-in/ticket-on	success	Java	Windows	Next.js	Native / Win32 (UI not proven)	Win32	Analysis not collected. Run the AI analysis step to populate this column.

Static, source-level evidence only; detection of a pattern is not proof of runtime use, and absence of a match is not proof of non-use. Partial and failed scans are nonresponse and are excluded from source-scan distributions, which can bias estimates if they differ systematically. The separate cross-OS review retains all sampled repositories.
